RE: Remaining Deficiencies to  
Tentative/Final Approval  
Interstate Brick Company  
Koosharem Clay Mine  
ACT/031/002  
Piute County, Utah

Dear Mr. Baldwin:

This letter will serve as a follow-up to the phone conversation dated February 9, 1984 between you and D. Wayne Hedberg of the Division technical staff. Issues discussed over the phone pertained to an earlier phone request by you for information regarding the overall permit status of the Koosharem properties. Apparently, some confusion resulted due to some correspondence gaps in your files.

The following is a tentative listing of those items deemed necessary as a preliminary step toward resolving the issue of final approval for the Koosharem Mine operation.

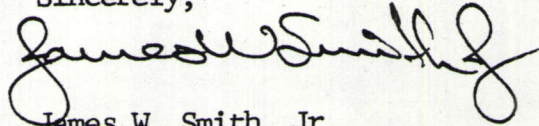

1. Please provide the updated Annual Progress Reports for those years since mine operations recommenced (i.e., 1980-1983).
2. Please provide the information outlined by the Division's conditional tentative approval letter dated July 28, 1980 (copy attached).
3. An adjustment to the surety bond on file with the Division may be in order dependent upon the changes which have occurred since mine activities were initiated. Use of the bond estimate forms which detail reclamation costs are encouraged. Copies of these forms were sent to Mr. Cahoon of Interstate Brick by Pamela Grubaugh Littig on February 14, 1983. If additional copies are necessary, let us know.

Mr. Ronald Baldwin  
ACT/031/002  
February 15, 1984  
Page 2

Should you have any questions, please feel free to call myself or D. Wayne Hedberg of the technical staff.

Sincerely,

A handwritten signature in cursive script, appearing to read "James W. Smith, Jr.", written in dark ink.
